### **Statement from USASF**

**MEMPHIS, TN - September 23, 2021** - There have been recent comments made in social media concerning an order entered by the Court in the U.S. District Court for Western Tennessee which denied the motions of Varsity Brands and U.S. All Star Federation to dismiss an antitrust case pending against them. The USASF has responded, "This order did not find that the claims of the plaintiffs have been proven but merely allows the case to proceed. The USASF has not conspired with Varsity Brands or anyone else to violate any antitrust laws. The allegations are baseless, and the plaintiffs will not be able to prove them at any trial on the merits. We will continue to defend our organization against these allegations for the benefit of all our members."
