The BOLT and MARCH workshops are designed to identify and enhance the natural leadership style within YOU! All USASF cheer and dance member athletes entering grades 9-12 are eligible to attend this exclusive training and apply for next level opportunities including:

- 1 Presenting at the Regional Advisory Board meeting for your region
- 2 Serving on the Athletic Advisory Board

The IMPACT Workshop is designed for all professionals in All Star including owners, coaches, event producers, choreographers and more. Through group discussion, interaction and activities you will learn to identify and expand your natural leadership style and enhance your ability to influence those you serve.

IMPACT is an interactive workshop that really makes you look deep inside of yourself to see what kind of leader and motivator you are and, most importantly, how you are able to make the greatest IMPACT! This training is something that I hope to do every year as a reminder and a refresher on how to become the coach, leader and person I want to be.
